Term 4 No. 13

**Principal's voice:**

Tēnā koutou, talofa, bonjour, malo e lelei, kia orana and hello,

Time is flying by and Christmas will be upon us before we know it! We have a lot happening on the way to the end of the term, please keep checking the calendar on the website for updates. We have also had a few catch ups from previous terms so please forgive us with the short notices.

We started our term with the years 1-4 children getting a chance to brush up on their cricket skills. Week 2 brought a fantastic performance called The Monarch Butterfly show - scientists and sustainability. There were only two actors but they performed extremely well and kept the audience entertained and engaged.

The year 5 and 6 camp in week three was a great success with the children having a fantastic time. There was some trepidation on the first morning from some of the children, but excitement and lots of fun followed! Three days and two nights in a new environment, sleeping in cabins (not a lot of sleep the first night!) and many challenging activities. A great opportunity for all our children and one we aim to repeat every year.

We have had North Harbour sport in working with the year 5 and 6 students teaching Ki o Rahi over the past few Fridays. The children are loving the game and are very enthusiastic. If you would like to find out more about Ki o Rahi [click here](#)

Or alternatively if you have any new items you would like to donate for the raffle you could pop them in at the office.

### **Road safety**

Over the past few weeks I have been becoming increasingly alarmed at the end of the day when children are walking out of school to go home.

While I have been out I have seen several parents waiting for their children on the opposite side of the road to collect children - that is fine. My concern is that I have seen those parents direct the children to cross from the opposite side of the road while ten metres down we have a patrol set up to cross your children safely **on the road crossing**. This is very alarming and extremely dangerous - my question to the parents who are doing this is - What are you teaching your children? Please take the time to get out of your car and wait for your children by the crossing on the other side of the road, this way we are teaching them how to cross safely and still allowing them their independence to meet you out of school.

Equally alarming is the amount of children walking to the church car park to find their parents' car. There is no issue with your children having independence and being able to meet you outside the school (we encouraged this after COVID as we could see how it was growing our children). My concern is that the church car park is a danger zone with cars entering and leaving, children are so busy looking for their car they are not paying attention to anything else! Please if you are picking your child from the car park, get out of your car and walk over to the fence where you can see your child leaving the school grounds and be there to guide them.

From early on as teachers we learn about Vygotsky's Zone of Proximal Development ( ZPD). The proximal refers to skills the child is close to gaining but not quite there yet - they still need a certain amount of scaffolding, like training wheels on a bike. I guess if you relate crossing the road or finding their car to ZPD for many of our children they are getting there but still need some guidance to stay safe and learn in a scaffolded way.

We want all our children to stay safe and learn good safety skills and it's our job together to make sure it happens

### **Lost property - please name your child's clothes**

The lost property went out on Friday and some got back to the rightful owners. Please make sure that you name **all** the clothing your child wears at school (including underwear -

swimming is starting soon!) It makes it so much easier to get items back to the correct person if it is named.

Can you please also make sure that if your child comes home with items that do not belong to them you bring them back to school.

### **The days are getting warmer**

Sun hats, sun block and wearing appropriate clothing will protect your child. Please make sure they come prepared for sunny weather

### **Blue Certificate winners**

Well done to all our learners for the past two weeks.

Whew! That was a lot of information, remember to take the time to put the dates that are important to you into your diary.

I have been principal at Birkdale North for two years now and was a little spoiled the other day at assembly with a certificate, some flowers and morning tea. The best part was the amazing comments from your children! When a child comes up and gives you a cuddle and says, "Congratulations Mrs McDonald, BNS would not be the same without you." It makes it all worthwhile! Your tamariki are the best!

The way photos are being done this year has changed. Like a lot of businesses Photo Life is changing to an Online Ordering.

Every student will get a "Key Code" with a unique code to purchase their photos through the Photo life website. The Key Codes will be the same for each student throughout the entire year, meaning all the photos they are in across the year will be available to view and purchase when Ordering Online.

The only change on Photo Day will be taking the portrait photograph of every student, whereas in the past they would have only taken photographs of those with order envelopes.
